**Promulgated:**

**ORDER**

On 26 June 2024, Antique Electric Cooperative, Inc. (ANTECO) and GNPower Kauswagan Ltd. Co. (GNPK) filed a *Joint Application*, dated 29 May 2024, seeking the Commission’s approval of their Emergency Power Purchase and Sale Agreement (EPPSA), with prayer for confidential treatment of information.

The pertinent allegations of the *Joint Application* are hereunder quoted as follows:

**THE JOINT APPLICANTS**

1. Applicant ANTECO is a non-stock electric cooperative duly organized and existing under and by virtue of the laws of the Republic of the Philippines, with principal office address at Barangay Funda, San Jose de Buenavista, Antique. It was granted an exclusive franchise by the National Electrification Commission to own and operate an electric distribution system in the Municipalities of Anini-y, TA Fornier, Hamtic,

San Jose, Sibalom, San Remigio, Belison, Bugasong, Valderrama, Laua-an, Barbaza, Tibiao, Culasi, Sebaste and Island of Caluya, all in the Province of Panay (*sic*) (the "Franchise Area")

2. ANTECO is represented herein by its Board President, Gil O. Alian Jr., and its General Manager, Neal Peter C. Venegas who were authorized by its Board of Directors to initiate, prepare, file and pursue the instant Joint Application pursuant to its Board Resolution No. 46- 24, Series of 2024, Series of 2024 (*sic*), a copy of which is hereto attached and marked as Annex "A".
3. Applicant GNPk is a duly registered limited partnership duly organized and existing under and by virtue of the laws of the Republic of the Philippines with principal office address at Brgy. Libertad, Kauswagan, 9202, Lanao del Norte. GNPk is the project company established to engage in the business of developing, constructing, operating and owning a 4 x 138MW (net) coal-fired power plant.
4. GNPk is represented herein by its Vice President for Energy Sales and Trading, Engr. Arnel O. Bilaoen, and its Authorized Representatives, Ms. Mariflor M. Guba and Mr. Gino Lorenzo R. Ilagan, who have been authorized to initiate, prepare, file, and pursue the instant Joint Application, as evidenced by its Secretary's Certificate dated 13 April 2024, the copy of which is hereto attached and marked as Annex "B".

#### NATURE AND TIMELINESS OF THE JOINT APPLICATION

5. This is an application for the approval of the Emergency Power Purchase and Sale Agreement ("EPPSA") entered into by and between ANTECO and GNPk on 15 April 2024, a copy of which is hereto attached and marked as Annex "C".
6. Section 24 of Resolution No. 16, Series of 2023 entitled *"Implementing Guidelines for the Procurement, Execution and Evaluation of Power Supply Agreements Entered into by Distribution Utilities for the Supply of Electricity to Their Captive Market"* ("2023 CSP Rules") mandates that *"the application for approval of the EPSA shall be filed with the ERC within thirty (30) calendar days after the occurrence of the Force Majeure or Fortuitous Event."*
7. Under the foregoing provisions pertaining to the exemption from conducting a Competitive Selection Process ("CSP"), Applicant ANTECO respectfully asserts its legal authorization to procure electricity through negotiated procurement due to circumstances beyond its control. As elaborated hereunder, it is essential for the cooperative to pursue this approach to ensure the cost-effective provision of electricity to its consumers.

**NARRATION OF FACTS**

8. In accordance with the mandate under the existing procurement guidelines, ANTECO, through the Panay-Guimaras EC Power Consortium Inc. ("PGEPCCI"), initiated a competitive selection process ("CSP") as early as 2021 to address its need for additional supply given the growth as well as the unprecedented surge in franchise demand after the pandemic which also delayed the formal start of bidding by 2022.
9. The procurement process for the Power Supply Requirement for Base Load - Firmed Open Technology consisted of Lot No. 1 (baseload), Lot No. 2 (intermediate) and Lot No. 3 (baseload - renewable). With this CSP, ANTECO intended to procure a total baseload capacity of 3 MW as part of Lot No. 3 in compliance with the Renewable Portfolio Standards ("RPS").
10. Notwithstanding this CSP efforts, particularly, under Lot No. 3, it was unfortunate that ANTECO failed to secure a long term power supply agreement. The total failure of bidding for Lot No. 3 led ANTECO to resort to the Wholesale Electricity Spot Market ("WESM") to address the current insufficiency in supply which is supposedly to be addressed by the long-term PSA that it entered as a result of a prior CSP[.]
11. Currently, WESM holds a significant share of 27.41% in the generation mix of ANTECO for the year 2024. ANTECO's consumers are exposed to the volatile WESM rates procured by ANTECO for January to March billing periods, by as much as PhP10.69/kWh, PhP9.06/kWh and PhP14.60/kWh (inclusive of VAT), respectively. Moreover, ANTECO is burdened with the increase in the required prudential requirement that threatens ANTECO's financial operations. This worsening situation caused by factors beyond ANTECO's control compelled ANTECO to seek measures to alleviate the adverse impact of the WESM by entering into an emergency supply agreement.
12. Further, based on ANTECO's market price monitoring last 12 April 2024, WESM prices spiked to PhP32,000.00/MWh during peak hours (from 1PM to 11PM) while based on the March 2024 market price monitoring, the price reached PhP64,185.50/MWh. ANTECO was burdened of the impact of such exposure to the volatile prices in the WESM which worsened towards the peaking months period as further aggravated by the El Nino phenomenon expected to persist until end of 2024.
13. Following its mandate to provide power in a least cost manner, ANTECO informed ERC Chairperson Monalisa C. Dimalanta, through a meeting in Iloilo City with Region 6 electric cooperatives on 2 February 2024, of its worsening condition and increasing blended generation rates and sought her guidance on ANTECO 's intent to procure emergency

supply to mitigate the impact of WESM prices. The Administrator of the National Electrification Administration ("NEA"), Mr. Antonio Mariano C. Almeda, was likewise informed of the foregoing through a meeting on 16 February 2024. Both agencies have been supportive of the proposed action to address the urgent matter at hand.

14. Relative to this, ANTECO, through the PGECPCI, proceeded with the request for emergency supply proposals from power suppliers in accordance with the 2023 CSP Rules wherein only GNPowder Kauswagan Ltd. Co. ("GNPK") responded with the generation rate offer favorable to ANTECO.
15. After thorough evaluation, the PGECPCI HOPE issued Board Resolution No. 04, Series of 2024 that the GNPK's proposal for ANTECO for emergency power supply requirement has been selected.
16. Accordingly, ANTECO and GNPK executed in counterparts the EPPSA, subject of this Joint Application.
17. Consequently, GNPK commenced delivery to ANTECO under the terms of the EPPSA on 1 May 2024.
18. Pursuant to the 2023 CSP Rules, on 15 April 2024, ANTECO sent a Notice of Force Majeure Majeure/Fortuitous Event of even date to the Honorable Commission, DOE, and NEA. Copies of the said Notices are hereto attached as Annexes "D" to "D-2".

25. ANNEX	DOCUMENT
"K"	GNPK Generation Rate and Derivation with Write-up on Finance-related Prefiling Requirements ( <i>subject of the Motion for Confidential Treatment</i> )

<sup>1</sup> Section 1, Rule 4, Rules of Practice and Procedure of the Energy Regulatory Commission.

"M-5"	GNPK Amendment to the Coal Supply Agreement dated 7 September 2023 ( <i>subject of the Motion for Confidential Treatment</i> )

26. Annexes "K", "K-1", "M-2", "M-3", "M-4", and "M-5" contain the details of the power rate calculations and financial model of GNPK as well as the manner by which these were derived. These information are proprietary in nature and should be protected as trade secrets as contemplated by law and jurisprudence. In the case of *Air Philippines Corporation vs. Pennswell, Inc.*<sup>2</sup>, the Supreme Court defined a trade secret, as follows:

*"(sic) A trade secret may consist of any formula, pattern, device, or compilation of information that: (1) is used in one's business; and (2) gives the employer an opportunity to obtain an advantage over competitors who do not possess the information. Generally, a trade secret is a process or device intended for continuous use in the operation of the business, for example, a machine or formula, but can be a price list or catalogue or specialized customer list. It is indubitable that trade secrets constitute proprietary rights. The inventor, discoverer, or possessor of a trade secret or similar innovation has rights therein which may be treated as property, and ordinarily an injunction will be granted to prevent the disclosure of the trade secret by one who obtained the information "in confidence" or through a "confidential relationship". American jurisprudence has utilized the following factors to determine if an information is a trade secret, to wit:*

- 1. the extent to which the information is known outside of the employer's business;*

---

<sup>2</sup> G.R. No. 172835, December 13, 2007

2. *the extent to which the information is known by employees and others involved in the business;*
  3. *the extent of measures taken by the employer to guard the secrecy of the information;*
  4. *the value of the information to the employer and to competitors;*
  5. *the amount of effort or money expended by the company in developing the information; and*
  6. *the extent to which the information could be easily or readily obtained through an independent source. (citations omitted, emphasis supplied)*
27. The interest of the consuming public is sufficiently protected by the review and evaluation of the rates under the EPPSA by the Honorable Commission, without the need to disclose the contents of Annexes "K", "K-1", "M-2", "M-3", "M-4", and "M-5". The reasonableness and transparency of the prices of electricity is to be assured by the Honorable Commission through its own review and verification of GNPk's generation costs.
28. More importantly, competitors of GNPk, should they obtain the information in Annexes "K", "K-1", "M-2", "M-3", "M-4", and "M-5" may gain undue advantage to the prejudice of GNPk. The negotiating power of GNPk with parties it plans to contract with or who it is currently doing business with, will clearly be thwarted if it is compelled to disclose such information.
29. Accordingly, Joint Applicants hereby submit one (1) copy of the confidential documents in a sealed envelope, with the envelope and each page of the document stamped with the word "Confidential".<sup>3</sup>

**PRAYER**

WHEREFORE, in view of all the foregoing, ANTECO and GNPk respectfully pray that:
